## GENERAL DATA PROTECTION REGULATION POLICY

### Statement of Intent

The General Data Protection Regulation (GDPR) is designed to protect the privacy of individuals. It requires that any personal information about an individual is processed securely and confidentially. This includes both staff and children. How CS Nursery Schools Ltd obtains, shares and uses information is critical, as personal data is sensitive and private. Everyone, adults and children alike, has the right to know how the information about them is used. The General Data Protection Regulation requires the pre-school to strike the right balance in processing personal information so that an individual's privacy is protected. Applying the principles to all information held by CS Nursery Schools Ltd will typically achieve this balance and help to comply with the legislation.

We will respect the privacy of children and their parents and carers, while ensuring that they access high quality early years care and education in our settings. We aim to ensure that all parents and carers can share their information in the confidence that it will only be used to enhance the welfare of their children. There are record keeping systems in place that meet legal requirements; means of storing and sharing that information take place within the framework of the General Data Protection Regulation and the Human Rights Act.

### General Data Protection Regulation principles

To comply with the act, CS Nursery Schools Ltd must observe the eight 'General Data Protection Regulation principles', ensuring that:

- Personal data shall be processed fairly and lawfully
- Personal data shall be obtained only for one or more specified and lawful purposes, and shall not be further processed in any manner incompatible with that purpose or those purposes.
- Personal data shall be adequate, relevant and not excessive in relation to the purpose or purposes for which they are processed.
- Personal data shall be accurate and, where necessary, kept up to date.
- Personal data processed for any purpose or purposes shall not be kept for longer than is necessary for that purpose or those purposes.
- Personal data shall be processed in accordance with the rights of data subjects under this Act.
- Appropriate technical and organisational measures shall be taken against unauthorised or unlawful processing of personal data and against accidental loss or destruction of, or damage to, personal data.
- Personal data shall not be transferred to a country or territory outside the European Economic Area unless that country or territory ensures an adequate level of protection for the rights and freedoms of data subjects in relation to the processing of personal data.

In practice, it means that CS Nursery Schools Ltd must:

- have legitimate grounds for collecting and using the personal data;

# CS Nursery Schools Ltd.

Tilford Meadow Nursery School, Woodland Nursery School, Pine Wood Nursery School

- not use the data in ways that have unjustified adverse effects on the individuals concerned;
- be transparent about how they intend to use the data, and give individuals appropriate privacy notices when collecting their personal data;
- handle people's personal data only in ways they would reasonably expect; and
- make sure they do not do anything unlawful with the data

Personal data is information that relates to an identifiable living individual that is processed as data. Processing amounts to collecting, using, disclosing, retaining or disposing of information. The General Data Protection Regulation principles apply to all information held electronically or in structured paper files.

The principles also extend to educational records – the names of staff and children, dates of birth, addresses, national insurance numbers, medical information, SEN assessments and staff development reviews.

Sensitive personal data is information that relates to

- race and ethnicity,
- political opinions,
- religious beliefs,
- membership of trade unions,
- physical and mental health,
- sexuality
- criminal offences

Sensitive personal data is given greater legal protection as individuals would expect certain information to be treated as private or confidential – for example, nursery managers may have a pre-school e-mail account that is made publicly available on the school's website whereas their home e-mail account is private and confidential and should only be available to those to whom consent had been granted.

It is important to differentiate between personal information that individuals would expect to be treated as private or confidential (whether or not legally classified as sensitive personal data) and personal information you can make freely available. For example: the nursery manager's identity is personal information but everyone would expect it to be publicly available. However, the nursery manager's home phone number would usually be regarded as private information.

## What must the pre-school do?

- We have notified and registered with the ICO (Information Commissioner's Office) that we are processing personal data.
- We have a nominated individual, Carolyn Stidston Nursery Owner, as the 'Data Protection Controller'.
- CS Nursery Schools Ltd has clear, practical policies and procedures on information governance for staff to follow, and needs to monitor their operation  
These should include:
  - Staff Code of Conduct
  - Confidentiality notices for staff and parents/pupils
  - Record Management audit
